Instructions to Chairs of Parallel Sessions:

Each parallel session will be two hours long. Each presenter is allocated 30 minutes, including time for discussion. It is up to you as the Session Chair to ensure that all speakers receive their allotted time and that the audience has an opportunity for questions and comments.

Where there are only 3 papers in a parallel session, you as the Session Chair should ensure that each speaker adheres to their allocated time of 30 minutes, to allow attendees to move to another session.

Inform speakers of how you will indicate how much time they have left for their talk (for example, 10 minutes, 5 minutes, 1 minute, stop) and how you will interrupt them if they have reached the end of their allotted time.

Try to leave time for pertinent questions and answers (especially if the talk is particularly inspiring or controversial). If, however, all time has expired for that speaker, it is acceptable to ask the attendees to discuss with that speaker after the end of the session.
